

Madalin Chirila

UX Designer

EXPERIENCE

UX Designer

CAVU (Contract)

August 2023 - February 2023, Manchester, UK

I collaborated closely with cross-functional teams to identify and resolve usability issues, ensuring a seamless user experience. This comprehensive UX role encompassed user-centric research to gain deep insights into user needs and behaviours. Prior to embarking on design solutions, I meticulously gathered data from digital analytics tools and various sources, conducted in-depth user interviews, and implemented A/B testing to validate design concepts.

UX Designer

Eigen Limited (Contract)

January 2023 - August 2023, Remote

Working as a contractor, I was the sole UX designer for a large oil and gas company. I was responsible for the entire UX design process, responsible for the entire UX design process, from research and strategy to implementation. This includes requirements gathering, wireframing, prototyping, and visual design. I also worked closely with product managers, engineers, and other stakeholders to ensure that my designs met the needs of the business.

UX Designer

Havas Lynx Group

June 2021 - January 2023, Manchester, UK

As a UX Consultant, I helped shape the user experience by providing guidance and support on UX matters for our healthcare products. In addition to working closely with our clients, I was responsible for creating the company's design system, ensuring consistency and efficiency in our design process. I was also instrumental in promoting accessibility within the company and helping others better understand accessibility principles.
